Check must be received by April 13, 2019

CLASS INFORMATION

Palomar Audubon Society is again offering bird classes on consecutive Tuesday evenings beginning Tuesday April 7, 2020. The first five classes will be for beginner/intermediate birders and the last four (starting Tuesday May 12th) will be for advanced birders. The classes will be integrated for registrants taking both classes. There will be four Saturday field trips.

Classes will start at 6:30 Pm and run for 90 minutes. They will be held at the Glassman Recreational Center at 18448 RB Community Center Drive off West Bernardo Drive (the large Casa De Las Companas Retirement Home is on the east side of this intersection).

The classes will cover the classification of birds, field markings of local birds, behavior, vocalization, tracking, and the different habitats in San Diego County. The advanced class will focus on additional aspects of vocalization and behavior.

For questions about the course contact Richard at rcfowler41@gmail.com.

INSTRUCTOR INFORMATION

The course will be led by Phoenix Von Hendy, a long time birding leader in north San Diego County and a Certified Tracker Naturalist.
